Utility work begins on WIS 47/Appleton Road/Valley Road intersection in Winnebago County

Lane closures and turn restrictions expected

(Green Bay) The Wisconsin Department of Transportation (WisDOT) Northeast Region office in Green Bay is announcing AT&T will begin utility work at the intersection of WIS 47/Appleton Road/Valley Road on Wednesday, Dec. 3 in Winnebago County. The utility work is expected to last approximately one month. The work is in preparation for next year's construction at WIS 47 (Appleton Road) interchange, a part of the WIS 441 Tri-County Expansion Project.

Traffic impacts for AT & T's utility construction include:

- A number of through lanes will be restricted during various stages
- Left-turns at Appleton Road and Valley Road will be prohibited during various stages
- Westbound Valley Road will be closed to motorists approaching the Appleton Road/Valley Road intersection during various stages

The first three weeks of the utility work will have the most impact on local traffic. Lanes closures and restricted turns will be open as much as possible when the concrete is cured enough to allow traffic.

All lane restrictions and work operations are weather dependent and subject to change.
