Lane closure on Meade St. bridge crossing US 41 in Outagamie Co *Bridge being posted for 15 ton limit*

(Green Bay) The Wisconsin Department of Transportation (WisDOT) northeast region office in Green Bay is announcing a northbound lane closure on the Meade St. (County E) bridge where it crosses US 41 in Brown County.

This closure is being done as a safety precaution due to some settling of the sidewalk on the approach to the north side of the bridge. Due to the settling, the bridge is also being posted at a 15-ton limit.

Crews are continuing to investigate as to what caused the settling and determine how to repair it. These precautions are being taken as a result of the settling of the sidewalk approaching the bridge. The bridge itself is safe for use and had been inspected in fall 2013.
