In advance of the construction of the system-to-system freeway interchange at **US 41** and **WIS 29**, an underpass to carry **County J (Riverdale Drive)** traffic under **WIS 29** was constructed. This project also included construction of the frontage road (**County RK**) between **County J** and **Packerland Drive (County EB)**, and construction of the roundabout at the intersection of **County RK** and **County J**.

County RK and the roundabout at **County RK** and **County J** are now open including access to Pamperin Park, except for the northbound **County RK** leg of the roundabout providing access to **County J** under **WIS 29**, which will open in January. Please note that **County J** access under **WIS 29** will only be open as far as Village Green Golf Course for an eight-week period this spring.
